 - A. AQ-2017-002
Rule 321 (Municipal Solid Waste Landfills)

The Maricopa County Air Quality Department (MCAQD) is proposing to revise Rule 321 to reflect the federal municipal solid waste landfill emission guidelines as promulgated August 29, 2016 and codified at Title 40 (Protection of Environment) of the Code of Federal Regulations (CFR), Part 60 (Standards of Performance for New Stationary Sources), Subpart Cf (Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills). In addition, the MCAQD is proposing to incorporate changes recommended by stakeholders, and to make other changes to improve and clarify the rule.

- B. AQ-2017-007
Rule 322 (Power Plant Operations)
Rule 323 (Fuel Burning Equipment from Industrial/Commercial/Institutional Sources)
Rule 324 (Stationary Reciprocating Internal Combustion Engines)

The MCAQD is proposing to revise Rules 322, 323, and 324 to address rule approvability comments provided by the Environmental Protection Agency (EPA). These changes are required in order for the EPA to approve these rules as Reasonably Available Control Technology (RACT) for control of nitrogen oxides, which are precursors to ozone formation. The MCAQD is also proposing changes to address rule improvement comments provided by the EPA, to incorporate changes recommended by stakeholders, and to make other changes to improve and clarify the rules.

C. AQ-2017-009

Rule 350 (Storage and Transfer of Organic Liquids (Non-Gasoline) at an Organic Liquid Distribution Facility)

Rule 351 (Storage and Loading of Gasoline at Bulk Gasoline Plants and Bulk Gasoline Terminals)

Rule 353 (Storage and Loading of Gasoline at Gasoline Dispensing Facilities)

MCAQD is proposing to revise Rules 350, 351, and 353 to address rule approvability comments provided by the Environmental Protection Agency (EPA). These changes are required in order for the EPA to approve these rules as Reasonably Available Control Technology (RACT) to reduce volatile organic compound (VOC) emissions. The MCAQD is also proposing changes to address rule improvement comments provided by the EPA, to incorporate changes recommended by stakeholders, and to make other changes to improve and clarify the rules.

D. AQ-2017-010

Rule 210 (Title V Permit Provisions)

The MCAQD is proposing to revise the MCAQD's NSR rules in order to secure their approval as part of the State Implementation Plan (SIP) under the federal Clean Air Act. The MCAQD's NSR rulemaking is comprised of seven (7) rules, including Rule 210. All of the NSR rules, with the exception of Rule 210, were approved for the initiation of regulatory change by the Board of Health at the July 23, 2018 meeting. Rule 210 was not initiated at that time because revisions to the rule were not anticipated. However, upon review of the U.S. Environmental Protection Agency's (EPA's) recommendations, the MCAQD is requesting approval for the initiation of regulatory change in order to revise Rule 210.

E. AQ-2017-011

Rule 204 (Emission Reduction Credits for Use with the Arizona Emissions Bank)

The MCAQD is proposing to revise Rule 204 to add provisions for nontraditional sources of emission reduction credits. Currently, the rule only allows for the generation, certification and utilization of emission reduction credits from permitted sources. Proposed revisions include new provisions for the generation, certification, and utilization of emission reduction credits from nontraditional sources that use truck stop electrification, electric standby equipped transport refrigeration units, and electric onsite equipment. Revising the rule will provide additional sources of emission reduction credits that will allow Maricopa County to move towards attainment of the National Ambient Air Quality Standards while still allowing industrial growth.
