Flood Control District of Maricopa County

FLOODPLAIN USE PERMIT / CLEARANCE APPLICATION

Arizona Revised Statutes § 48-3644.

Prohibited acts by district and employees; enforcement; notice

- A. A district shall not base a licensing decision in whole or in part on a licensing requirement or condition that is not specifically authorized by statute, rule, regulation, ordinance, executive order or delegation agreement. A general grant of authority does not constitute a basis for imposing a licensing requirement or condition unless the authority specifically authorizes the requirement or condition.
- B. Unless specifically authorized, a district shall avoid duplication of other laws or executive orders that do not enhance regulatory clarity and shall avoid dual permitting to the maximum extent practicable.
- C. This section does not prohibit district flexibility to issue licenses or adopt ordinances or regulations.
- D. A district shall not request or initiate discussions with a person about waiving that person's rights.
- E. This section may be enforced in a private civil action and relief may be awarded against the district. The court may award reasonable attorney fees, damages and all fees associated with the license application to a party that prevails in an action against the district for a violation of this section.
- F. A district employee may not intentionally or knowingly violate this section. A violation of this section is cause for disciplinary action or dismissal pursuant to the district's adopted personnel policy.
- G. This section does not abrogate the immunity provided by section 12-820.01 or 12-820.02.
- H. A district shall prominently print the provisions of subsections A, B, C, D, E, F and G of this section on all license applications.
- I. The licensing application may be in either print or electronic format.

Flood Control District

of Maricopa County

WARNING AND DISCLAIMER OF LIABILITY

A Floodplain Regulation for Maricopa County has been in force since February 25, 1974. The current version of the Floodplain Regulation for Maricopa County, Arizona was adopted on August 4, 1986, and amended March 23, 1987, April 6, 1988, September 18, 1989, September 3, 1991, December 15, 1993, November 1, 2000, December 20, 2006, November 30, 2011, April 9, 2014, June 25, 2014, and January 17, 2018. The intent of the Regulations is to prevent the dangerous and expensive misuse of floodplains in Maricopa County.

A Floodplain or floodprone area as defined in the Regulations is any land area susceptible to being inundated by water from any source.

Depending on the location of your property it could possibly be inundated by greater frequency flood events (those occurring more often). A flood greater in magnitude than the 100-year flood could also occur.

The review your development has undergone is solely for the purpose of determining if your application conforms with the written requirements of the Floodplain Regulation for Maricopa County. It is not to be taken as a warranty. Compliance with this Regulation does not insure complete protection from flooding. The Floodplain Regulation meets established standards for floodplain management, but neither this review nor the Regulation take into account such flood related problems as natural erosion, streambed meander or man-made obstructions and diversions all of which may have an adverse affect in the event of a flood. You are advised to consult your own engineer or other expert regarding these considerations.

In consideration for the issuance of the requested permit the applicant, owner, agent, engineer and their successors agree to hold the District harmless from any onsite or offsite damages of any kind arising from the development of the subject property in accordance with their submittals as outlined in the attached permit

I have read and understand the above WARNING AND DISCLAIMER OF LIABILITY.
